## INTRODUCTION

### Conference Background and Highlights

The inaugural 1<sup>st</sup> MGS – GEOSS Conference was successfully held from 24 to 26 June 2019 at the Hilton Petaling Jaya, Selangor, Malaysia with the theme "Geotechnics in Urban Infrastructure". This was an initiative under the Memorandum of Understanding signed by MGS and GeoSS on 3 November 2017, where both parties agreed to jointly organise a Geotechnical Conference hosted alternately. This inaugural 1MGSSC was well supported by academicians and practitioners. The Conference had an Opening Address and Keynote Lectures delivered by distinguished geotechnical experts and eminent academicians.

The 2019 conference featured over 50 technical presentations by speakers from Malaysia, Singapore, and around the globe, attracting 265 participants.

The 2<sup>nd</sup> GEOSS – MGS Conference was hosted by GeoSS from 30 November to 2 December 2023 at Capri by Fraser, Changi City, Singapore. This edition brought together geotechnical professionals to engage on the theme of "Sustainable Urban Development", with continued emphasis on innovative design, construction methods, safety, and technological advancements.

The conference received over 50 abstracts and featured a distinguished lineup of speakers, including six renowned keynote lecturers and two ISSMGE Bright Spark Lectures delivered by emerging young engineers. A highlight of the event was the presence of the President and Vice-President for Asia of the ISSMGE, who each delivered Presidential Lectures, underscoring the event's regional and international significance.

## CONFERENCE THEME

The Conference theme is **Advancements in Geotechnical Engineering: Shaping the Future of the Built Environment**

Sub themes include:

- Soil Characterization and Properties
- Ground Improvement and Stabilization
- Shallow and Deep Foundations
- Excavations and Retaining Structures
- Field Testing and Performance Monitoring
- Engineering Geology and Rock Mechanics
- Design Analysis and Modelling
- Tunnelling and Underground Space Development
- Earthquake Geotechnics for Seismic Resilience

## CONFERENCE LOCATION

**Kota Kinabalu, Sabah where NATURE MEETS INNOVATION.**

Nestled on the breathtaking coast of Borneo, Kota Kinabalu and affectionately known as "KK", Kota Kinabalu offers a unique blend of natural beauty, cultural richness, and modern conveniences, making it an ideal destination for this year's conference. As the capital of Sabah, Malaysia's "Land Below the Wind," Kota Kinabalu is a vibrant gateway to adventure, learning, and connection.

From its world-renowned sunsets over the South China Sea to the majestic backdrop of Mount Kinabalu, the highest peak in Southeast Asia, the city promises an unforgettable experience for every visitor. Whether you're wandering through bustling local markets, enjoying fresh seafood by the waterfront, or venturing into nearby islands and rainforests, KK offers the perfect balance of business and leisure.

Beyond its natural wonders, Kota Kinabalu is also rapidly evolving as a hub of infrastructure development and sustainable urban growth—making it a fitting location to explore the latest advancements in geotechnical engineering.

## CONFERENCE VENUE

**Sabah International Convention Centre (SICC)** is East Malaysia's premier waterfront events hub, located in the heart of Kota Kinabalu along the scenic South China Sea. Strategically positioned just a short drive from Kota Kinabalu International Airport, it offers excellent regional and international air connectivity.

Surrounding accommodation ranges from luxury and international hotels within 5 km to thousands more rooms across the city, complemented by vibrant dining, shopping, and leisure options. Its stunning waterfront setting not only enhances delegate experience but also provides easy access to local attractions and cultural experiences.

The conference hall at Sipadan II and II located on Level 4 are thoughtfully designed conference halls within the SICC that offer participants a comfortable, professional, and well-connected meeting environment.
